Mandatory Clinical Records, Itemized Bills & Diagnostic Documentation Checklist

==========

Official Healthcare & Insurance Knowledge Document

SECTION: Surgical Case Document Requirements

For surgical interventions such as Total Knee Replacement, Cholecystectomy, Microdiscectomy, or Cardiac Stenting , the hospital must provide: Detailed operative record describing surgical steps and findings; Anesthesia pre-operative evaluation and intra-operative monitoring record; Implant invoices with manufacturer serial numbers, batch numbers, and barcode stickers pasted into case notes; and Histopathology report for excised tissue.

SECTION: Medical Intensive Care Unit ICU Document Requirements

---

For acute medical admissions requiring intensive care, the dossier must include: Daily consultant progress notes; ICU flow sheets showing vital signs recording every 1 to 2 hours; Arterial Blood Gas ABG reports, serum lactate, and organ function panels; and Clinical rationale for prolonged ICU stay exceeding forty-eight hours.
