Healthcare Insurance Claim Denial Code Master Reference Guide

==========

Official Healthcare & Insurance Knowledge Document

SECTION: Standard Denial Codes & Definitions

AUTH-01 Prior Authorization Missing : Elective procedure performed without pre-approval or emergency intimation exceeded window. MED-01 Medical Necessity Not Established : Clinical evidence fails to justify acute hospitalization or chosen surgical procedure over conservative alternatives. DOC-01 Insufficient Clinical Documentation : Critical records operative notes, lab results, imaging reports omitted from dossier. POLICY-01 Policy Exclusion / Waiting Period : Condition falls under statutory waiting period or policy general exclusion. TIMELY-01 Timely Filing Exceeded : Claim submitted beyond the 30-day post-discharge window.

SECTION: Denial Adjudication Standards for Reviewers

Insurance compliance reviewers must cite specific contract clauses when issuing claim denials. A generic statement such as 'not covered' is invalid. The reviewer must state the exact clause number, explain what clinical evidence is lacking, and identify the required remedial documents for hospital reconsideration.
