Bharat Health Assurance - Inpatient, Daycare & Emergency Coverage Guidelines

==========

Official Healthcare & Insurance Knowledge Document

SECTION: Daycare Surgical Procedures Coverage

Medical advances allowing surgical operations and procedures undertaken under general or local anesthesia in a hospital/daycare center in less than 24 hours are covered. Covered daycare interventions include cataract surgeries, laparoscopic appendectomy, laparoscopic cholecystectomy, coronary angiography, dialysis, and targeted chemotherapy sessions. Outpatient consultations and non-surgical diagnostic investigations remain non-payable.

SECTION: Cashless Authorization Desk Operating Protocol

The hospital cashless coordination desk must transmit the Pre-Authorization Request Form Form C along with verified patient government photo ID, active policy card, treating doctor’s clinical history, admission slip, and estimated bill. The insurance company medical audit desk will communicate initial cashless approval, query, or denial within 3 hours of receiving complete documentation.
